

Admin and Students

Creating an Account

1. Open the home page.
2. Click on Sign Up.
3. Enter first name, last name, email, and password. Select Admin if you're an admin. Select Student if you're a student. Click on Signup.

Logging in / Signing in

1. Open the home page.
2. Click on Sign In.

3. Enter email and password. Select Admin if you're an admin. Select Student if you're a student. Click on Login.

The image displays two sequential screenshots of a web application's authentication interface, set against a solid red background.

The top screenshot shows a central white rounded rectangle containing two buttons: "Sign Up" and "Sign In". The "Sign In" button is circled in blue.

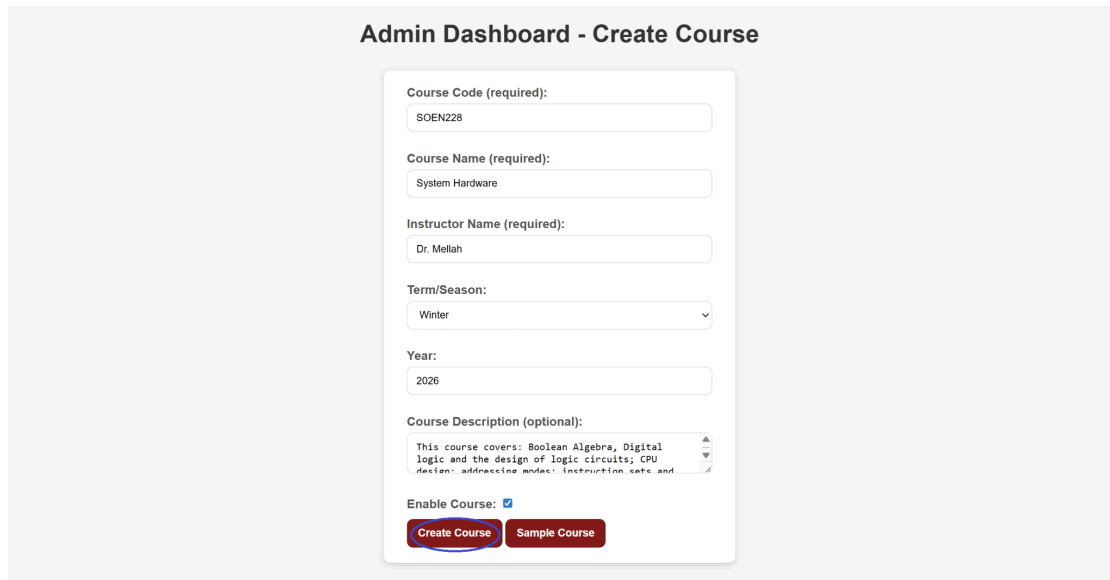

The bottom screenshot shows a "Login" form. The form is a white rounded rectangle with the following elements:

- Login** (Section Header)
- Email input field containing "doryvi224@gmail.com"
- Password input field with masked characters "*****"
- Role selection: Two radio buttons, "Admin" (unselected) and "Student" (selected).
- Login** button (circled in blue)
- Link: "Don't have an account? **Signup**"

Admin

Adding, editing, hiding, deleting a Course

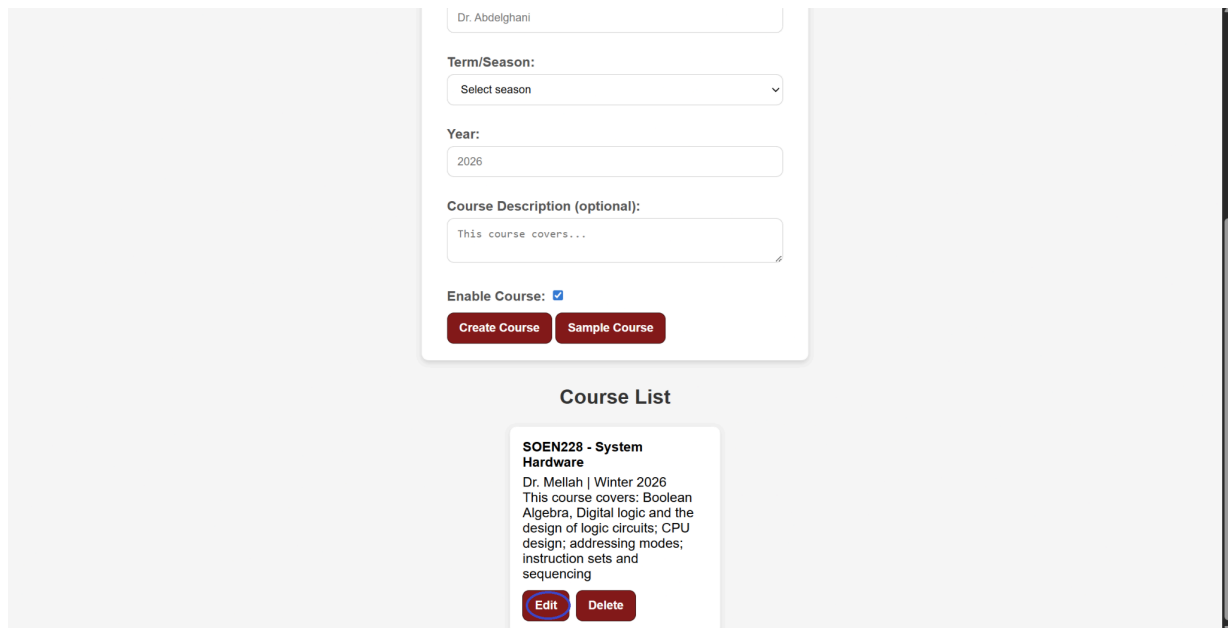

Adding : Open the Create Course page. Fill out the course details (code, course name, instructor's name, term, year, and description if needed). Click on Create Course.

The screenshot shows the 'Admin Dashboard - Create Course' form. It contains the following fields and controls:

- Course Code (required):** Text input with value 'SOEN228'.
- Course Name (required):** Text input with value 'System Hardware'.
- Instructor Name (required):** Text input with value 'Dr. Mellah'.
- Term/Season:** Dropdown menu with value 'Winter'.
- Year:** Text input with value '2026'.
- Course Description (optional):** Text area with value 'This course covers: Boolean Algebra, Digital logic and the design of logic circuits; CPU design; addressing modes; instruction sets and sequencing'.
- Enable Course:** Checkmark is checked.
- Buttons:** 'Create Course' (highlighted with a red circle) and 'Sample Course'.

Editing : Click on Edit below a course, in order to edit this course's details. Once the details are filled out, clicking on Update Course will update it.

The screenshot shows the 'Admin Dashboard - Edit Course' form and the 'Course List' below it.

Edit Course Form:

- Course Code (required):** Text input with value 'SOEN228'.
- Course Name (required):** Text input with value 'System Hardware'.
- Instructor Name (required):** Text input with value 'Dr. Mellah'.
- Term/Season:** Dropdown menu with value 'Winter'.
- Year:** Text input with value '2026'.
- Course Description (optional):** Text area with value 'This course covers: Boolean Algebra, Digital logic and the design of logic circuits; CPU design; addressing modes; instruction sets and sequencing'.
- Enable Course:** Checkmark is checked.
- Buttons:** 'Create Course' and 'Sample Course'.

Course List:

- SOEN228 - System Hardware**
- Dr. Mellah | Winter 2026**
- This course covers: Boolean Algebra, Digital logic and the design of logic circuits; CPU design; addressing modes; instruction sets and sequencing**
- Buttons:** 'Edit' (highlighted with a red circle) and 'Delete'.
